

Compiler testing: a systematic literature analysis

Yixuan TANG, Zhilei REN, Weiqiang KONG, He JIANG

Frontiers of Computer Science, DOI: [10.1007/s11704-019-8231-0](https://doi.org/10.1007/s11704-019-8231-0)

Problems & Ideas

- Problems : there remains an obstacle to comprehensively characterize and understand compiler testing
- Ideas: a systematic and comprehensive literature analysis framework
 - Dataset collection
 - Bibliometric analysis
 - Collaboration analysis

the components of framework
