

**Supplementary Table S1** Fractional amplitude of low-frequency fluctuation of significant brain areas  
with comparisons between asthma patients and healthy controls

	Brain areas	x	y	z	voxels	<i>T</i>	<i>P</i>
fALFF <sup>a</sup>							
Patients < HCs <sup>b</sup>	Left angular gyrus	-42	-66	27	89	3.98	<0.05
	Left middle frontal gyrus	-33	51	3	356	4.00	<0.05

<sup>a</sup> fALFF, fractional amplitude of low-frequency fluctuation; <sup>b</sup> HCs, healthy controls.
